# World History Topic 1 Origins of Civilization Prehistory-4,000 BCE

	Name: they
I.	The Distant Past
	A. Studying Early Humans
	1. anthropology – the study of how $\sqrt{\Omega}$ beings behave, how they
	together, where they came from, and what makes one group
	different from another
	2. archaeologists – study human life in the past by examining the
	things people left behind
	3. study prehistory - time before Written records
	4. study fossils - hardened remains or imprints of things
	that existed long ago (plants, feathers, hones, and footprints)
	5. <b>geologists</b> – study physical materials of Earth such as soil and rocks
	6. study <b>artifacts</b> – anything made by homans (tools, pottery, and heapons), to learn about ways of life
	B. Where Did Human Ancestors Live?
	1. oldest found in Africa
	2. evidence - proof , found that these "handy men" used tools
	3. 1-76 million years old
	4. $\bigcirc \bigcirc \bigcirc$
	4. Lucy – 3.5 feet tall and 3.2 million years old 5. Aydı – taller and heavier and 4.2 million years old
	6. theorized that humans evolved from <u>noes</u> 5 to 7 million years ago
	7. <b>conclude</b> – <u>decide</u> , that humankind began in East Africa 4.5 million
	years ago
	8. then found a <u>Skull</u> in central Africa that is 7 million years old
	C. How Did Hunter-Gatherers Live?
	1. hunter-gatherers – lived by hunting small <u>animals</u> and gathering
	2 developed societies and technology to survive
	2. developed societies and <u>technology</u> to survive 3. Paleolithic Era – <u>Old Stone</u> Age when they used stone <u>tools</u>
	4. five — to see at night, cook food, protect themselves, and stay warm
	5. culture – way of \ \ \ \ \ \ \ \ \ \ \ \ \ of a group of people (family structure, beliefs,
	language, religion, food, homes, ciothes,
	pastimes, rituals, art, etc.)
	6. lived in small bands (10-12 adults with children) and were
	womads to find food

#### Quick Activity Explore Ancient Innovations

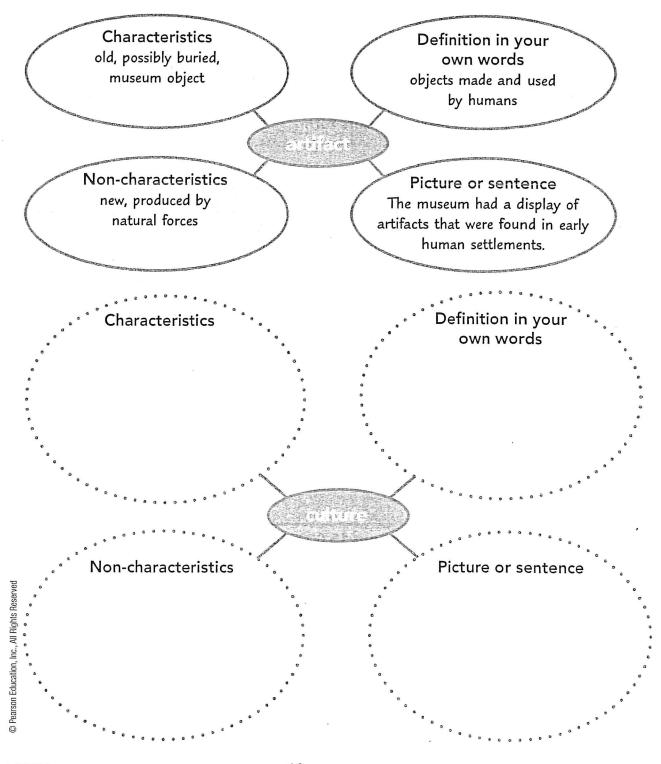

In prehistoric times, people developed new tools and practices that changed societies by increasing the population and improving the standard of living. What innovations do you see in the painting? Write you ideas in the space below.

My Ideas

Team Challenge! With a partner discuss the effect that one of the following innovations would have had on society: domestication of animals and plants; the ability to make tools; the ability to create art and music. Compare your ideas with classmates who discussed the same innovation

Word Map Study the word map for the word artifact. Characteristics are words or phrases that relate to the word in the center of the word map. Non-characteristics are words and phrases not associated with the word. Use the blank word map to explore the meaning of the word culture. Then make word maps of your own for these words: anthropology, archaeologist, prehistory, fossil, geologist, technology, and hunter-gatherer.

II. Humans Spread Out
A. What Were Later Stone Age Peoples Like?
1. Neanderthals found in Germany and Denisovans found in Asia  2. first to bury their dead
3. made tools, used fire, and hunted animals
4. Nomo Sayoi ens were similar but were taller, lighter, and less muscular
5. developed a complex language - having many related parts, not simple
6. helped them Gorvine
B. What Do We Know About Early Human Migration?
1. have walked the Earth for $\partial \bigcirc \bigcirc$ ,000 years
2. started in Africa; the "OUT OF Africa" theory
3. migration - move ment from homeland to another region
4. African communities have the most <u>appetic</u> variations in the world
5. then migrated to Europe, Asia, Australia, and the Americas
C. How Did Humans Adapt to Varied Environments?
1. settled in different environments - Govoundings
2. had to adapt - Change Way of life, to suit their new environment
(new food and shelter)
3. also adapted to survive the <b>Ice</b> Age
a. water was locked up in <u>Alaciers</u>
b. land was exposed and water animals crossed new
land bydges and the humans followed
c. built warmer shelters out of warmond bones and hide
d. formed communities of 25-50 to survive, creating a <b>network</b> – a closely
inter connected group of people or things
e. began to <u>trade</u> and exchange knowledge

#### Take Notes

Literacy Skills: Analyze Cause and Effect Use what you have read to complete the organizer. For each event, write the cause in the box to the left and the effect in the box to the right. The first one has been completed for you.

Cause	Event	Effect
200,000 years ago, the last new group of humans appeared: Homo sapiens.	Homo sapiens developed the skill of complex language.	Language skills gave these modern humans an advantage in the struggle to survive.
THE PROPERTY OF THE PROPERTY O	Glaciers form.	The state of the s
	Sea levels drop, exposing "land bridges."

Vocabulary Quiz Show Some quiz shows ask a question and expect the contestant to give the answer. In other shows, the contestant is given an answer and must supply the question. If the blank is in the Question column, write the question that would result in the answer in the Answer column. If the question is supplied, write the answer.

Question	Answer
1. What happens when people leave their homeland to live elsewhere?	3 · 1
2.	2. environment
3. What do you call it when you change your way of life to suit a new environment?	3.

III. Developing Complex Cultures
A. When Did People Start to Create Art?
1. large-brained "wise people" were always on the move
2. populate - become in habitants of the whole world
3. early art – Lascaux cave paints in France, 16,000 years old
4. statues representing animals and pregnant women
5. art showed potential - Dossibility to grow and change in the future
B. What Do We Know About Stone Age Religion?
1. early practices involved death and boy al
2. two Ice Age children buried in hossia covered in beads
3. believed in animism – a belief that the world was filled with Sports
C. When Did People Start to Farm?
1. began farming around 10,000 years ago when it warmed up
2. Neolithic Era – New Stove Age when they began to farm
3. some animals couldn't adapt and died out
4. people found different animals to hunt and began to Figh
5. cleared trees and planted wild Seeds
6. began to <b>domesticate</b> – control growth of plants and animals for
7. agricultural <b>revolution</b> – complete change in thinking, working, or 1000 a. wolves became
a. wolves became doos
b. crops (wheat, rice, and <u>Covo</u> ) became reliable - <u>dependable</u> ,
steady, not risky
c. animals provided work, eggs, milk, honey, work, and
tibers for cloth
d. became pastoral <b>nomads</b> – people who move from place to place with
their hards
e. domesticated crops were more abundant, larger, and tasted
better
f. domesticated animals were 5 maller and easier to manage
g. new tools for farmers - axe, 5,000, grinding stones, and mile
h. began to use Metals for tools (5tone Age to Bronze Age to
Typy Age)

#### Lesson 3 Developing Complex Cultures

#### Take Notes

Literacy Skills: Sequence Use what you have read to complete the flowcharts to show the sequence of events. The first flowchart has been completed for you.

Humans live as hunter-gatherers.

As Ice Age ends, some animals and plants cannot adapt.

People search for new sources of food.

Some people begin to depend on fishing.

Hunter-gatherers develop language.

Other animals are domesticated and herded.

Grains become a food source.

Over time, domesticated plants produce more food.

More efficient metal tools are developed.

TOPIC 1

**Word Bank** 

Sentence Builder Finish the sentences below with a key term from this section. You may have to change the form of the words to complete the sentences.

animism	nomad	revolution
domesticate	populate	
humans did not		there were few places on Earth that
	•	
called a(n)		so many changes that it has been
3. The wolf was o	ne of the first ar	nimals that humans were able to
4. The belief that	the natural wor	ld is full of spirits is known as
	0 e 0 c 9 5 6 0 a g a g	
5. A person with is known as a(r		ome who moves from place to place

IV. New Ways of Life
A. Where Did Farming Begin and How Did It Spread?
1. hunter-gatherers had few possessions and life was short and
damerous
2. then began to stay in one place
3. began farming 10,000 years ago in Asia and spread to Africa and Europe
a. Asia - wheat, barley, wee, and millet
b. America - potatoes, beans, and squash
c. Africa – sorghum and yams
4. dangers of farming and herding
a. took the and energy and wasn't certain
b. attacked by nomads
5. benefit – <u>Claim</u> , favorable result
a. produced more food and took up less <u>land</u>
b. built permanent homes and villages
c. provided new sources of <u>material</u> for clothing
B. How Did Farming Change Human Culture?
1. built different <u>Nomes</u>
2. Catalhoyuk
a. oldest farming settlement ( <u>8</u> ,000 years ago)
b. Turkey
c. had no Streets, lots of artwork, and Kitchens
d. grew Graine Sand raised sheep and goods 3. clothes
a. hunter-gatherers wore <u>hides</u> and fur
b. farmers used <u>Cotton</u> , flax, wool, and <u>Sile</u> (much lighter)
4. surplus – <u>Move</u> than needed, so villages grew
5. specialization – spend most of their time working at a single or craft
a. toolmakers, potters, weavers, metalworkers
a. toolmakers, potters, weavers, metalworkers b. traded with others
6. accumulate - Collect or attain a large amount of food and possessions
7. was the beginning of wearity
C. How Did the First Cities Begin?
1. farming villages in the <u>M\d d\l</u> East
2. Uruk
a. 6,000-7,000 years ago
b. much <u>lavaev</u> than others
c. houses, gardens, and temples
d. temple priests ruled and later <u>Vivas</u> (instead of a village council)
e. economy – system that a community dises to produce and
distribute <u>400ds</u> and services f. Wealthy and attracted many people
f. Wealthy and attracted many people g. surrounded by a Wall
g. surrounded by a MONI

#### Take Notes

Literacy Skills: Analyze Cause and Effect Use what you have read to complete the organizer. For each event, write the cause in the box to the left and the effect in the box to the right. The first one has been completed for you.

Cause Event = 1(= et a 1. Farming begins. 1. People settle in 1. People develop one place. permanent shelters. 2. People learn how to make clothes from cotton, flax, and other plants. 3. Some farming families raise a surplus of food. 4. Specialization develops. INTERACTIVE For extra help, review the 21st Century

Tutorial: Analyze Cause and Effect.

Matching Logic Using your knowledge of the underlined vocabulary words, draw a line from each sentence in Column 1 to match it with the sentence in Column 2 to which it logically belongs.

#### Column 1

- 1. The villagers traded their <u>surplus</u> crops for pottery made in a nearby settlement.
- 2. Specialization led to a more complex society and an increase in trade.
- 3. The city of Uruk had a complex <u>economy</u>.

#### Column 2

Some people became skilled at weaving, pottery, or toolmaking.

The community had a system to produce and distribute goods and services.

The good harvest supplied them with more than they could eat.

A. How Did Cities Lead to Civilizations?
1. settlements to Villages to cities to early Civilizations
2. civilization – complex Govery that has cities,
aovernments, and specialized workers
3. resource - Sopply of something that can be used as needed
a. fertile 501, fresh water, and seeds
b. labor, tools, and planning
4. early civilizations (many in <u>Cevilo</u> river valleys)
a. Sumer in Asia
b. the Nive River in Africa
c. the Tigris River and Euphrates River in Meso 100 tam 10
d. the Indus River in South ASIO
e. the Hoand River in China
f. the Give in Europe and the Mediterranean Sea
5. built ivnaahbv systems, cut down rees, and cleared land to build
B. What Are the Features of Civilization?
1. cities - centers of veliaton, government, and Culture
2. government
a. manage – to <u>Olyect</u> , have control over
b. control resources
c. form and train an ON YYVV
d. became Vince and Chicens
d. became Kings and Gueens 3. religion – shared Spring beliefs
a. often linked to croveryment
b. believed in gods and goddesses
c. offered Sacraficed and led prayers
d. beliefs about life after alarm
e. rules about how to treat one another and live wordly
4. job specialization – act of concentrating on a hymited number of
goods or activities
5. social classes – groups of people that occupy different vonces or levels in
society
a. pnests and rulers at the top
b. farmers, Meychants, and skilled workers
c. <u>Sicues</u> – prisoners of war or debtors
6. public workers - wads, water systems, walls, and granaries
/. arts and architecture
a. temples, tombs, and palaces
b. statues and paintings
c. <u>Yewery</u> and perfume boxes
d. Mysic and literature
8. system of white ————————————————————————————————————
)

V. The Rise of Civilizations

#### Take Notes

Literacy Skills: Summarize Use what you have read to complete the flowcharts. Write a summary for each set of facts. The first flowchart has been completed for you.

As farming spread, settlements developed.

As settlements grew in size, specialization helped create complex societies.

Summary: Farming led to the development of complex societies.

Governments managed society's resources.

Governments also formed and trained armies to defend society from attack.

Summary:

The highest social class in most early societies was made up of priests and rulers.

Rulers of early civilizations claimed that their right to rule came from the gods.

Summary:

INTERACTIVE

Words in Context For each question below, write an answer that shows your understanding of the boldfaced vocabulary term.

1. Why did different **social classes** emerge in the early cities?

2. What **resources** were important to farmers?

3. What are some characteristics of civilization?

4. What were some features of **religion** in early civilizations?

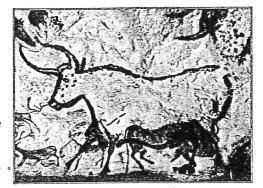

# Origins of Civilization Preview

# Essential Question How much does geography shape people's lives?

Before you begin this topic, think about the Essential Question by completing the following activity.

1. List the geographical features of your hometown. Describe any that influence how people live in your region.

2. Preview the topic by skimming lesson titles, headings, and graphics. Then study this list of the developments that took place in prehistoric times. How does each relate to geography?

humans domesticate animals

sea levels rise

the first cities appear

rivers deposit fertile soil

societies become more complex

sea levels drop during Ice Age

#### Timeline Skills

As you read, write and/or draw at least three events from the topic. Draw a line from each event to its correct position on the timeline.
