Dear Mark,

My family and I just got back from the greatest vacation ever—a real African safarie. there's a lot to tell you. We saw a crocadile, a gorila, and dozens of other wild animals. One night we slept in a small bungalow with no electricity. We each had our own hammuck and listened to the night sounds echoing through the jungle. We even took a kiyak trip down a remote river. Wait until you see the pictures!

See you soon,
David
